DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group I, claims 1-14, in the reply filed on 11/1/04 is acknowledged.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 15-24.

This application is in condition for allowance except for the presence of claims 15-24 to an invention non-elected without traverse. Accordingly, claims 15-24 have been cancelled.

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing a compensation component having a stacked layer drift path in accordance with all of the limitations of claim 1 in combination. Therefore, independent claim 1 is deemed allowable along with its dependent claims 2-14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following US patents disclose the known state of semiconductor structures incorporating stacked layer drift regions: 6768169, 6081009, 5438215, 6768171, 6294818 and 6734462.
